

Dr. Sambursky opened his practice limited to Prosthodontics in August 1992 after completing a post doctoral specialty residency in Prosthodontics at Eastman Dental Center (University of Rochester). There, he received advanced training in Implant Dentistry, Aesthetic Dentistry, Crown and Bridge, Complete and Partial Dentures, and Maxillofacial Prosthodontics. In addition to being on faculty at Eastman Dental Center at the University of Rochester, he lectures annually to the Broome Community College School of Hygiene. Dr. Sambursky is also co-founder of "Predictable Prosthodontic Seminars" which provides continuing education to General Dentists

**Professional Memberships:**

- American College of Prosthodontists
- Academy of Osseointegration
- American Dental Association

As a specialty practice we strive to bring the best to our patients.

Our goal is it make you feel as comfortable as possible while you are sharing your time with us.

We serve our patients in a courteous, professional, and kind manner. We value our patients and our hope is to develop long term relationships.

We offer state of the art care with minimum discomfort. We promote preventative care in our office and at home so our patients can enjoy a lifetime of good health.

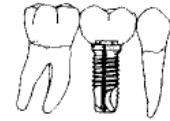

Our staff is well trained and highly motivated to provide an enjoyable, positive atmosphere every time you visit.

We look forward to the start of something rewarding for all of us.

## *What is a Prosthodontist ?*

Prosthodontics is the specialty of dentistry which is concerned with the restoration or replacement of missing or broken down teeth with natural looking substitutes. A Prosthodontist utilizes various techniques and procedures in order to create a functional and very esthetic smile.

## *Do you have to leave your existing dentist in order to see Dr. Sambursky?*

No. In fact, Dr. Sambursky works with many general dentists who refer patients to have specific procedures done. Patients then return to their general dentist for continued maintenance.

## *Can I see Dr. Sambursky without a referral?*

Yes. New Patients are always welcome.

## *What happens on the first appointment?*

On your first appointment Dr. Sambursky will perform a thorough dental examination, including any x-rays required for a proper diagnosis and treatment (if you have had x-rays recently, please bring them to your first appointment or request that your dentist send them). Following the examination, Dr. Sambursky will review his findings and discuss different treatment options with you. A second appointment may be required for more involved treatment.

## *How do I pay for my appointments?*

Payment is due at the time of service, however for larger treatment plans, payment schedules and financing are available.
